

## Industrial Washing & Processing Machine (Front Loading)

'Washing Machine' are designed for all types of Laundry Jobs, Technical and Enzyme Washing. Different machines in different sizes for different Fabrics such as Denim, Cotton, Rayon, Knitted, Woolen Garments.

Automatic, Auto timed, Auto, reverse, Auto Digital temperature control, Heavy stainless steel fabrication in Front plate, Inner Basket & Outer Drum

Heating system available in Electric/Steam Direct Injection/Indirect steam through Seamless pipe of SS 316 quality Coils/Thermic Heat Transfer Fluids, Oil/Gas fired heated.

Available in 15, 30, 60 & 100 Kg. Dry weight per charge capacity.

Machine also available with Microprocessor Based Programmable Logic Controller and AC drives for variable speeds, storage of present programmed facility and possibility of supervisory control.

**Note:** a) All Dimensions are in MM. Standard Machines Operate on 415 ±10%, 3 Phase, 50HZ, CYS AC Electric Supply, Special Voltage on request.  
b) Machines are also made to order as per customer's requirement & specifications.

NXS: Steam | NXE: Electric
